## Individualised Funding Providers in the Nelson Marlborough Region

as from November 23, 2011

Individualised Funding enables disabled people to directly manage the Ministry of Health funded disability supports that they receive for personal care and household management by Support Works. Individualised Funding can currently only be used to purchase home and community support services. Individualised Funding is not an additional service, but a payment mechanism within current Ministry of Health policy and budgets.

For more information please contact your Support Works Needs Assessor.
